Applicant's election of Group II, claims 9-16 is acknowledged. In view of the amendment submitted April 5, 2007 newly submitted claims 17-22 will be examined.

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(a) the invention was known or used by others in this country, or patented or described in a printed publication in this or a foreign country, before the invention thereof by the applicant for a patent.

(f) he did not himself invent the subject matter sought to be patented.

Claims 17-22 are rejected under 35 U.S.C. 102(a) as being anticipated by Galopin et al (Abstract 0056, 224th American Chemical Society National Meeting, Aug 2002).

Galopin et al (Abstract 0056, 224th American Chemical Society National Meeting, Aug 2002) teach a variety of derivatives of sanshool chemicals for use in foods as is claimed (see abstract).

The enhancement of salty taste would be inherent to that of Galopin et al.

Claims 17-22 are rejected under 35 U.S.C. 102(f) because the applicant did not invent the claimed subject matter.

Galopin et al (Abstract 0056, 224th American Chemical Society National Meeting, Aug, 2002) presented derivatives of sanshool chemicals at a national meeting prior to the filing of the claimed invention.
